

Purfürst Residents in Germany Introduction

The listings within this chapter identify the Purfürst family members who were residents of the various German villages and cities indicated. Unless otherwise indicated this information was taken from actual German parish baptism, marriage or burial registers or city archive records.

The Numerical designations indicate descendant-relationships, in descending sequence. For example, the person with a numerical designation of "3" is a descendant of the person with a numerical designation "2", who in turn is a descendant of the person with designation "1".

Other possible ancestors are at the "From" city, if shown, which indicates the name of village where that individual previously lived.

Other possible descendants are at the "To" city, if shown, which indicates the name of the village to which that individual later moved.

The listings reflect villages which, for the most part, are grouped in the southern portion of the German states of Thuringia and Saxony. Obviously, records were not examined in every parish across Germany thus the origin (From) or later location (To) of family members has not been determined for every individual.

The family naming patterns which repeatedly reused various given names, i.e., Johann Georg, hindered the identification of ancestors and descendants thus numerous people within this city listing have not yet been connected to the Purfürst Family Tree. The individuals without a Family Tree ancestral connection would be those with the numerical designation of "1" who have no "From" village (origin).

The purpose of this city listing was to track movement, and develop ancestral connections, of those family members carrying the Purfürst surname. Those who connect to The Purfürst Family Tree will be identified in the Surname Index found at the rear of this volume.

Efforts were not made to track female family members as subsequent marriages were assumed, thus ending continuation of the family name.

THE FIRST FAMILY

1. Johann Christoph Purfürst
Born: about 1565 (birth place unknown)
Died: 1611
Wife: Elisabeth Gruber
Born: 1570
Died: Mar 13, 1664, in Leubnitz
Married: 1585

NOTE (the following calculations are based on parish record comments):

Elisabeth was "age 94" when she died thus she was born in 1570
Elisabeth was "16 years old" when she married thus they married in 1585.
Elisabeth had been a "widow for 53 years" thus Johann died in 1611
Johann would be estimated as 20 years old when he married.
Elisabeth gave "birth to 11 children: 4 sons (of which 2 survived) and 7 daughters (of which 6 survived)".
